Professional Summary

Computer Science and Engineering undergraduate at KL University with a strong foundation in software development and problem-solving. Proficient in building robust web applications using modern frontend and backend technologies. Demonstrated ability to collaborate effectively through academic and project-based work. Passionate about product development, scalable systems, and cloud technologies.

Technical Skills

Languages: Java, C

Testing: STLC, Selenium

Tools/Platforms: Git, GitHub, AWS (Basic Knowledge)

Web/Database: HTML, CSS, React, Django, MySQL, MongoDB, SQL

Education

KL University, B.Tech in Computer Science and Engineering 2022 – 2026
CGPA: 9.05 (Till Date)

Tirumaa Junior College, Intermediate – 91.3

Sri Chaitanya Techno School, SSC – CGPA: 10.0 2019 – 2020

Key Projects

Health and Nutrient Management System — Java, Spring Boot, JPA, MySQL 🏠 Project Repository
Developed a Java Full Stack web application using Spring Boot MVC architecture to manage health and nutrition data. Implemented REST APIs for CRUD operations, integrated JPA for database interaction, and tested endpoints using Postman.

Campus Placement Portal — React, MongoDB 🏠 Project Repository
Developed a web application for campus placements with student registration, company listings, and application tracking. Improved system performance through debugging and optimized database queries.

NKL Seafoods Website — HTML, CSS, JavaScript 🏠 Project Repository
Developed a responsive business website for seafood export operations. Designed product catalog pages, ensured cross-device compatibility, and tested functionalities using Selenium automation.

MediaI Chatbot — AIML, AWS 🏠 Project Repository
Built an AI-powered chatbot using AIML to handle interactive user queries. Deployed the application on AWS and integrated it with a frontend interface to improve accessibility and scalability.

Certifications

- AWS Certified Cloud Practitioner
